CHAPTER I: Getting Started

1.1. About it:

The Infinite Energy Generator is made to help people reduce or even cut entirely their power bills.

1.2. Tools Required

The list below shows the main tools that will be required to complete this build:

Soldering Gun
Plier
Calipers
Screw Driver
Drill
Allen Keys
Diagonal Cutting Plier
Digital Multimeter

1.3. Notes on Assembly:

This manual has been written for the construction of a small scale Infinite Energy Generator. If you want to make a bigger version, everything is the same, just remember to follow the same principles.

It is recommended that you read the whole manual before beginning the build. This is so you can get a rough idea of how it all goes together. Before starting each step make sure you have studied the diagrams and fully understand what you are doing at each step.

When attaching parts, make sure they are sensibly squared and aligned. Everything should easily fit together. If a part is requiring significant force to attach, then stop, take it off, re-read the instructions, and try again. Do not overtighten bolts, as you may strip the threads.

1.4. Terms and Conditions:

1.4.1. Products, Content, and Specifications:

All features, content, specifications, products, and prices of products and services described or depicted in this document are subject to change at any time without notice. Certain weights, measures, and similar descriptions are approximate and are provided for convenience purposes only.

THE INFINITE ENERGY GENERATOR makes all reasonable efforts to accurately display the attributes of our products within this document, including the applicable colors; however, the actual color you see will depend on your computer system, and we cannot guarantee that your computer will accurately display such colors.

It is your responsibility to ascertain and obey all applicable local, state, federal and international laws (including minimum age requirements) regarding the possession, use, and sale of any item purchased from **THE INFINITE ENERGY GENERATOR**, including this document. By placing an order, you represent that the products ordered will be used only in a lawful manner.

1.4.2. Accuracy of Information:

We attempt to ensure that information in this document is complete, accurate, and current. Despite our efforts, the information in this document may occasionally be inaccurate, incomplete, or out of date. We make no representation as to the completeness, accuracy, or current nature of any information in this document. For example, products described in this document may be unavailable, may have different attributes than those listed, or may carry a different specification than those stated in this document. Also, we may make changes in information about our products without notice.

1.4.3. Accuracy of Information:

This document is and its contents are provided for your personal use for the creation of and/or provision of information about, **THE INFINITE ENERGY GENERATOR**, and supporting electronics. This document is therefore provided under a Creative Commons non-commercial share.

The design of this document and all text, graphics, information, content, and other material displayed in or that can be downloaded from this document are protected by the US and International copyright, trademark and other laws.
